

Unit Ten Racing Pigeon Club

Club Member Declaration of Compliance

The undersigned agrees to fully comply and cooperate with the Unit Ten Club's Drug Testing Policies and Procedures which are intended to prevent the unfair advantage that can be gained by the use of prohibited performance enhancing products or drugs.

In the event of a failed drug test, the Unit Ten Drug Committee and the Board of Directors will investigate the possibility of presenting the factual evidence to the Pasco County Prosecutor. Depending on circumstances, the matter could be prosecuted as a Grand Larceny Felony or Petit Larceny Misdemeanor or an attempt to commit these crimes.

The undersigned acknowledges the receipt of a copy of the Unit Ten Club's "Prohibited Performance Enhancing Drug Testing Rules," which outlines policies, procedures and penalties. In addition, he/she acknowledges the receipt of the "Master List of Prohibited Products." He/she also agrees that he/she will accept full responsibility for the pigeons that he/she is training or racing, and will accept and cooperate with the policies and penalties which have been adopted by the Unit Ten Club.

Unit Ten Racing Pigeon Club

List of Prohibited Performance Enhancing Drugs

Unit Ten Club has adopted the attached list of prohibited performance enhancing drugs and products. This detailed, comprehensive list comes from the KBDB in Belgium and was prepared by an association of veterinarians with special knowledge and special interest in racing pigeons.

This list, also known as the "Red List," is divided into ten basic categories. They are:

- 1)Corticosteroids, 2)Bronchodilators, 3)Anabolic Steroids,
- 4)Non-Steroidal Anti-Inflammatory Drugs, 5)Opiates, 6)Analgesics,
- 7)Stimulants, 8)Synthetic Hormones, 9)Masking Agents, 10)Banned Plants.

The use of any of the listed items is prohibited. Related items which might not be explicitly listed are also prohibited. As new performance enhancing drugs are discovered, or changes are made to existing products, this list will be amended to include those drugs that are prohibited. Members will be notified of any changes to the current list.

1. Corticosteroids

- | | | |
|-----------------------|-------------------------------------|--------------------------------------|
| . Acclomethasone | . Dichlorisone | . Fluorometholone: (Fluprednisolone) |
| . Amcinonide | . Diflorasone acetate | . Fluticasone |
| . Beclomethasone | . Diflucortolone | . Halcinonide |
| . Betamethasone | . Flouroprednisolone | . Halobetasol |
| . Budesonide | . Fluandrenolide (Fluandrenolone), | . Halomethasone |
| . Ciclesonide | . Fludrocortisone (Fluorocortisone) | . Hydrocortisone/Cortisol |
| . Clobetasol | . Fludroxycortide) | . Isoflupredone |
| . Clobetasone | . Flumetasone (Flumethasone) | . Meprednisone |
| . Clocortolone | . Flunisolide | . Methylprednisolone |
| . Corticosterone ** | . Fluocinolone | . Mometasone |
| . Cortisone | . Fluocinolone acetonide | . Paramethasone |
| . Cortivazol | . Fluocinonide | . Prednisolone |
| . Deoxycorticosterone | . Fluocortolone | . Prednisone |
| . (Desoxymethasone) | . Fluoprednidene | . Triamcinolone |
| . Desonide | | . Triamcinolone acetonide |
| . Desoximethasone | | . Triamcinolone hexacetonide |
| . Dexamethasone | | |

Each corticosteroid or metabolite reflecting the exogenous administration of corticosteroids is completely forbidden, even if not explicitly listed in this list.

2. Bronchodilators including B-agonists

- . Acefylline
- . Aformoterol
- . Albuterol
- . Aminophylline
- . Bambuterol
- . Bamifylline
- . Bitolterol
- . Carbuterol
- . Cimaterol
- . Clenbuterol
- . Cromolyn
- . Diprophylline
- . Dopexamine
- . Ephedrine
- . Epinephrine (racemic epinifrine)
- . Etamiphylline
- . Ethylnorepinephrine
- . Fenoterol
- . Formoterol
- . Ipratropium (bromide)
- . Isoetharine
- . Isoprenaline (Isoprotorenol)
- . Levosalbutamol: levabuterl
- . Mabuterol
- . Metaproterenol
- . Orciprenaline
- . Pirbuterol
- . Procaterol
- . Propentofylline
- . Proxyphylline
- . Ractopamine
- . Reproterol
- . Rimiterol
- . Salbutamol
- . Salmeterol
- . Terbutaline
- . Tiotropium
- . Tulobuterol
- . Zilpaterol

Each bronchodilator or

B-agonist or metabolite reflecting the exogenous administration of bronchodilators or B-agonists is completely forbidden, even if not explicitly listed in this list.

3. Anabolic steroids

- . 17-Alpha-Hydroxy Progesterone
- . Androstenediol **
- . Androstenedione **
- . Bolandiol
- . Bolasterone
- . Boldenone **
- . Boldione
- . Calusterone
- . Clostebol
- . Danazol
- . Dehydrochloromethyltestosterone
- . Dehydrochlorotestosterone
- . Desoxymethyltestosterone
- . Dihydrotestosterone **
- . Dromostanolone
- . Drostanolone
- . Epiternbolone
- . Estranediol
- . Estrone
- . Ethinyl estradiol
- . Ethylestrenol
- . Fluoxymesterone
- . Formebolone
- . Furazabol
- . Gestrinone
- . Hydroxytestosterone
- . Melengesterol
- . Mestanolone
- . Mesterolone
- . Methallenestril
- . Methandienone
- . Methandriol
- . Methandrostenolone
- . Methasterone
- . Methenolone
- . Methyl (-1-) testosterone
- . Methylidienolone

- . Methylnortestosterone
- . Methylprogesterone
- . Methyltrienolone
- . Metribolone
- . Mibolerone
- . Nandrolone (Nortestosterone) **
- . Norandrostenediol
- . Norandrostenedione
- . Norbolethone
- . Nitric Oxide (Plasmajet) (GHC add)
- . Norclostebol
- . Norethandrolone
- . Normethandrolone
- . Oxabolone
- . Oxandrolone
- . Oxymesterone
- . Oxymetholone
- . Paramethadione
- . Progesterone **
- . Prasterone **
- . Prostanazol
- . Quinbolone
- . Stanozolol
- . Stenbolone
- . Testosterone **
- . Tetrahydrogestrinone (THG)
- . Tibolone
- . Trenbolone

Each anabolicum or metabolite signifying the exogenous administration of anabolic compounds is completely forbidden, even if not explicitly listed in this list.

4. Non-Steroidal anti-inflammatory drugs

- . Acemetacin
- . Alclofenac
- . Ampyrone
- . Antipyrine
- . Apazone
- . Azapropazone
- . Benorilate
- . Benoxaprofen
- . Benzydamine
- . Biphenamine
- . Bromfenac
- . Bufexamac
- . Carprofen
- . Celecoxib
- . Cicloprofen
- . Cinchophen
- . Clonixin
- . Deracoxib
- . Diclofenac
- . Dimethyl Sulfone (Dimethyl sulfoxide)
- . Dimethyl Sulphoxide (DM SO)
- . Dipyrone (Metamizole)
- . Eltenac
- . Etodolac
- . Etoricoxib
- . Felbinac
- . Fenbufen
- . Fenclofenac
- . Fenclozic acid
- . Fenoprofen
- . Fenspiride
- . Feprazone
- . Firocoxib
- . Floctafenine
- . Flufenamic acid
- . Flunixin
- . Flurbiprofen
- . Indomethacin
- . Indoprofen
- . Isoxicam
- . Kebuzone
- . Ketoprofen
- . Ketorolac
- . Lornoxicam
- . Lumiracoxib
- . Meclofenamic acid
- . Meloxicam
- . Mesalamine (Mesalazine)
- . Metamizole (Dipyrone)
- . Methoxyphenamine
- . -Methylsalicylic acid
- . Mofebutazone
- . Nabumetone
- . Naproxen
- . Niflumic acid
- . Nimesulide
- . Noramidoperine
- . Oxaprozin
- . Oxyphenbutazone
- . Phenylbutazone
- . Piroxicam
- . Pirprofen
- . Propyphenazone
- . Proquazone
- . Rofecoxib
- . Salicylic amide
- . Salicylic acid
- . Sulindac
- . Suphone)
- . Suxibuzone
- . Tepoxalin
- . Tiaprofenic Acid
- . Tolfenamic acid
- . Tolmetin
- . Vedaprofen
- . Zomepirac
- . Mavacoxib
- . Robenacoxib
- . Cimicoxib
- . Acetate salicylic acid

Each NSAID or metabolite reflecting the exogenous administration of Nsaids is completely forbidden, even If not explicitly listed in this list.

5. Narcotic Analgesic(and opiates)

- | | | |
|-------------------------|---------------------------|-------------------|
| . Acetaminophen | . Diprenorphine | . Morpheridine |
| . Acetophenetidin | . Ecgonine methyl ester | . Morphine ** |
| . Acetylmorphine | . Epibatidine | . Nalbuphine |
| . Alfentanil | . Ethoheptazine | . Nalorphine |
| . Alphaprodine | . Ethylmorphine | . Naloxone |
| . Anileridine | . Etorphine | . Naltrexone |
| . Apocodeine | . Fentanyl | . Nefopam |
| . Apomorphine | . Fentiazac | . Oripavine |
| . Betaprodine | . It should | . Oxycodone |
| . Buprenorphine | . Hydrocodone | . Oxymorphone |
| . Butorphanol | . Hydromorhinol | . Phenazocine |
| . Carfentanil | . Hydromorphone | . Phenazone |
| . Codeine | . Ibuprofen | . Phenazopyridine |
| . Conorphone | . Isomethadone | . Piminodine |
| . Dermorphin | . Isopyrin (Ramifenazone) | . Propiram |
| . Dextromoramide | . Levomethadone | . Propoxyphene |
| . Dextropropoxyphene | . Levomethorphan | . Remifentanil |
| . Dezocine | . Levorphanol | . Sufentanil |
| . Diamorphine (Heroine) | . Lofentanil | . Suprofen |
| . Diethylthiambutene | . Meperidine (Pethidine) | . Tenoxicam |
| . Dihydrocodeine | . Meptazinol | . Tramadol |
| . Dihydrocodeinone | . Metazocine | . Valdecobix |
| . Dihydromorphone | . Overseas importers | . Zicotinide |
| . Diphenoxylate | . Methyldihydromorphinon | |
| . Dipipanone | e | |

Any opiate or metabolite reflecting the exogenous administration of an opiate is completely forbidden, even if not explicitly listed in this list.

6. Analgesic (Antipyretics)

- | | |
|--------------|-----------|
| . Acetanilid | . Bucetin |
|--------------|-----------|

The above substances, metabolites pointing to exogenous administration of these substances or molecules with the same effect are prohibited. This list may be adapted or supplemented annually.

7. Resources with an influence on the nervous system including caffeine

- . (MDEA)
- . (MDMA)
- . (Methylenedioxyethylamphetamine)
- . (Methylenedioxymethamphetamine)
- . Acebutolol
- . Acetophenazine
- . Adinazolam
- . Adrafinil
- . Adrenaline
- . Alphadolone acetate
- . Alpidem
- . Alprazolam
- . Amantadine
- . Ambenonium
- . Amfepramone
- . Amfetaminil
- . Amineptine
- . Amiphenazole
- . Amoxapine
- . Amperozide
- . Amphetamine
- . Amphetaminil
- . Anilopam
- . Anisotropine
- . Arecoline
- . Arsenic
- . Atomoxetine
- . Atropine **
- . Azacyclonal
- . Bemegride
- . Benactyzine
- . Benapryzine
- . Benperidol
- . Bentazepam
- . Benzoyllecgonine
- . Benzphetamine
- . Benztropine
- . Benzyloperazine
- . Bepridil
- . Biperiden
- . Biriperone
- . Bromantan
- . Bromazepam
- . Bromocriptine
- . Bromophenethylamine
- . Bromperidol
- . Brotizolam was administered
- . Bufotenine **
- . Buphenine
- . Bupropion
- . Buspirone
- . Butaperazine
- . Butoctamide
- . Butylscopolamine
- . Caffeine **
- . Camazepam
- . Cannabis
- . Capsaicin **
- . Captodiamine
- . Caramiphen
- . Carphedon
- . Carphenazine
- . Carpipramine
- . Cathine (Norpseudoephedrine)
- . (Chlordiazepoxide)
- . Chlormezanone
- . Chlorphentermine
- . Chlorprothixene
- . Citalopram
- . Clidinium
- . Clobazam
- . Clobenzorex
- . Clozapramine
- . Clomipramine (Clomipramine)
- . Clonazepam
- . Clopamide. (Clorazepate)
- . Clothiapine
- . Clotiazepam
- . Cloxazolam
- . Clozapine
- . Cocaine
- . Cropropamide
- . Crotehamide
- . Cyamemazine
- . Mask
- . Cycrimine
- . Delorazepam
- . Demoxepam
- . Deserpidine
- . Desipramine
- . Desoxyephedrine
- . Dibenzeplin
- . Dimeflin
- . Dimethylamphetamine
- . Dixyrazine
- . Dobutamine
- . Dopamine
- . Dothiepin
- . Doxapram
- . Doxepin
- . Droperidol
- . Duloxetine
- . Enciprazine
- . Ephedrine
- . Estazolam
- . Etafedrine
- . Etamivan
- . Ethyl Loflazepate
- . Ethylamphetamine
- . Etifoxine
- . Etilefrine
- . Etizolam
- . Etodroxizine
- . Famprofazone
- . Fenbutrazate

- . Fencamfamine
- . Fencamine
- . Fenethylamine (Fenetylline,
- . Fenfluramine
- . Fenozolone
- . Fenproporex
- . Flunitrazepam
- . Fluopromazine (Trifluopro
mazine)
- . Fluorophenethylamine
- . Fluoxetine
- . Flupenthixol
- . Fluphenazine
- . Flurazepam
- . Fluspirilene
- . Furfenorex
- . Gepirone
- . Glycopyrrolate
- . Heptaminol
- . Heroin
- . Homatropine
- . Homophenazine
- . Hordenine Norepinephrin
e **
- . Hydroxyamphetamine
- . Hydroxyephedrine (Oxilof
rine)
- . Hyoscyamine (Atropine is
omeres)
- . Iprindole
- . Iproniazid
- . Ipsapirone
- . Isocarboxazid
- . Isometheptane
- . Isometheptene
- . Isopropamide
- . Ketazolam
- . Lenperone
- . Leptazole (Pentylene-tetra-
zole)
- . Levophacetoperane
- . Loprazolam
- . Lorazepam
- . Lormetazepam
- . Loxapine
- . Maprotiline

- . MDA (Methylenedioxyam
phetamine)
- . MDEA
- . MDMA
- . Mefenorex
- . Mefexamide
- . Melperone
- . Meparfynol
- . Mepazine
- . Mephentermine
- . Meprobamate (Meprobro
mate)
- . Mescaline
- . Pemoline
- . Metaclozepam
- . Metaraminol
- . Methamphetamine
- . Methylaminorex
- . Methyl atropine
- . Methylenedioxyampheta
mine (MDA)
- . Methylenedioxyethylamph
etamine
- . Methylenedioxymethamp
hetamine
- . Methylephedrine
- . Methylbufotenine **
- . Methylhexaneamine
- . Methylphenidate
- . Methylpseudoephedrine
- . Mexazolam
- . Midazolam
- . Mirtazepine
- . Modafanil
- . Molindone
- . Moperone
- . Morphine
- . Morphedrine
- . Mosapramine
- . Naphazoline
- . Neostigmine
- . Nialamide
- . Nicotine
- . Nikethamide
- . Nimetazepam
- . Nitrazepam
- . Nomifensine
- . Norcocaine

- . Norfenefrine
- . Norfenfluramine
- . Nortriptyline
- . Octopamine
- . Olanzapine
- . Oxazepam
- . Phendimetrazine
- . Para xanthine **
- . Paroxetine
- . Pemoline
- . Pentetrazol
- . Pergolide
- . Phendimetrazine
- . Phenethylamine, Phenetyl
lin
e)
- . Phenmetrazine
- . Phenpromethamine
- . Phenylephrine
- . Phenyliprazine
- . And Phenylpropanolamine
- . Pholedrine
- . Picrotoxin
- . Pimozide
- . Pinazepam
- . Pipequaline
- . Piperidione
- . Piperidolate
- . Pipradol (Pipradrol)
- . Piracetam
- . Prazepam
- . Procyclidine
- . Prolintane
- . Propylhexedrine
- . Protokylol
- . Protriptyline
- . Pseudoephedrine
- . Scopolamine **
- . Selegiline
- . Sertraline
- . Sibutramine
- . Sumatriptan
- . Synephrine
- . Theobromine **
- . Theophylline **
- . Tofenacin
- . Tramazoline
- . Trazodone

- . Triazolam
- . Trihexylphenidyl (Trihexyphenidyl)
- . Trimipramine

- . Tropicamide
- . Tuaminoheptane
- . Tybamate
- . Venlafaxine

- . Viloxazine
- . Xylometazoline
- . Yohimbine
- . Zimeldine

The above substances, metabolites pointing to exogenous administration of these substances or molecules with the same effect are prohibited. This list may be adapted or supplemented annually.

8. Synthetic hormones and growth promoters (prohormones, gonadotrophins, blood thinners and all relatives)

- . Adrenochrome
- . Excessive adrenocorticotrophic hormone (ACTH)
- . Aldosterone
- . Altrenogest
- . Amidephrine
- . Amisulpride
- . Amitriptylline
- . AMPK activators
- . Anisindione
- . Aromatase inhibitors
- . Chlormadinone acetate
- . Clomiphene
- . Coroxon
- . Delmadinone acetate
- . Diphenadione
- . Efavproxiral

- . Erythropoietin (EPO) and each erythropoiesis stimulating substance
- . Growth Factors
- . Growth Hormone (GH) (growth hormone and growth hormone releasing factor)
- . Human Chorionic gonadotropin (hCG)
- . Haemaglobin analogues
- . Insulin and inlaws
- . Levothyroxine
- . Myostatin Inhibitors and similar
- . peroxisome proliferator activated receptor α (PPAR α) agonists

- . Raloxifene
- . selective estrogen receptor modulators (SERMS) and other anti-estrogen substances
- . Tamoxifen
- . Toremifene
- . Oxygen carriers (oxygen carriers)
- . Octacosactide
- . Tetracosactide
- . Buseriline
- . GnRH
- . Desloreline
- . Peforeline
- . Pregnant Mare Serum Gonadotropin (PMSG)

Each synthetic (pro-) hormone or growth promoters or related substance, or metabolite reflecting the exogenous administration of these substances is completely prohibited, even if not explicitly listed in this list.

B. Manipulation

The products that are capable of endogenous or exogenous concentration of substances in urine, manure/change spring with the aim to change the integrity of the sample (including, but not limited to, diuretics)

- . (Methylclothiazide)
- . Althiazide
- . Amiloride
- . Aminoheptane
- . Aminomethylbenzoic acid
- . Amisometradine
- . Azapetine
- . Bendroflumethazide
- . Benzthiazide
- . Brinzolamide
- . Bumetanide
- . Chlormerodrin
- . Chlorothiazide (Chlorthiazide)
- . Chlorthalidone
- . Cyclothiazide

- . Drospirenone
- . Ethacrynic acid
- . Ethiazide
- . Flumethazide
- . Flutoprazepam
- . Fluvoxamine
- . Furosemide
- . Hydrochlorothiazide
- . Hydroflumethiazide
- . Indapamide
- . Mefruside
- . Meralluride
- . Merbaphen
- . Mercaptomerin
- . Mersalyl
- . Methazolamide

- . Methyclothiazide
- . Methylchlorthiazide
- . Metolazone
- . Piretanide
- . Polythiazide
- . Probenecid
- . Quinethazone
- . Spironolactone
- . Torasemide
- . Triamterene
- . Trichlormethiazide
- . Trometamol
- . Xipamide
- . Acetazolamide

List of plants that contain banned substances. Most of these plants are poisonous.

- . **Deadly**
- Nightshade (Atropa Belladonna)**
- . **Mandrake (Mandragora officinarum)**
- . **Bilzen herb (Hyoscyamus niger)**
- . **datura (Datura stramonium)**
- . **Kola nuts (Cola acuminata-Cola nitida)**
- . **Guarana (Paulliniacupana)**
- . **Clock henbane (Scopolia carniolica)**
- . **Mate (Ilex paraguariensis)**
- . **Nux Vomica (GHC Add)**
- . **Capsicum. mushrooms of the genus Amanita**
- . **Anadenanthera**
- . **Theobroma**
- . **Poppy or papaver (poppy)**
- . **Willow (Salix alba) and all the plants that contain salicylic acid**
- . **Meadowsweet (Filipendulaulmaria)**
